

In North Tipperary we have decided not to stream or record services due to limited resources for doing that when there are other options online. However, we are supplying a variety that people can use. For now we are supplying people with the weekly worship outline on the site.

- We have also made a prayer outline (A4 two sides) for people to use.
- We are producing a daily video to upload to a new YouTube channel that we have set up, hoping that it will include a variety of church members.
- I am personally ringing around all members of the Circuit and will call older people every week.
- We are talking about using Skype for prayer meetings.
- We are exploring having a car convoy blowing horns on Easter Sunday morning.
- We are considering offering the use of our premises for those in perilous housing circumstances.
- We are encouraging members to support charity initiatives in Roscrea and Cloughjordan for the more vulnerable or isolated and are making it known that anyone in the community can contact us to see if we can help.
